CABINETRY™

STYLES | WOODS | FINISHES

IT'S ALL UP TO YOU.

Welcome to an overview of Showplace door styles, wood species and finish options. As you'll soon see, there are a lot of choices in front of you.

Every Showplace door style is offered in multiple wood species, and in all the finish options associated with each species. All finishes are offered in your choice of satin or matte sheen. There are also overlay and header choices to consider. You'll find full details in this booklet, or on ShowplaceCabinetry.com. But the best way to find that just-right door, wood and finish combination is to look at actual samples at a Showplace dealer, where the subtleties and details will be apparent. They also have the training and experience to help you narrow all the choices down to that one perfect style, *yours*.

STANDARD WOODS AND STAINS

CHERRY

The warm elegance of cherry darkens considerably as it ages. Cherry's fine grain often exhibits swirls and a flowing, random pattern. Its color varies from nearly white to dark reddish brown.

MAPLE

The fine, uniform grain pattern of maple tends toward lighter colorations. Like all woods, it will darken with age, but to a lesser degree than cherry. Maple takes on a subtle mottled appearance when finished in the darker stains.

HICKORY

The outgoing extrovert of the hardwood family, dense, heavy hickory displays vibrant grain patterns and wide variation in color. Lighter stains make this feature most evident, while darker stains tend to mute it. Hickory is also available in rustic.

RED OAK

A time-honored favorite with prominent, distinctive grain character, red oak may show tiny rays and flowing patterns. It tends toward warm tones and is very hard with a high shock resistance.

RUSTIC ALDER

Create an environment of authentic warmth and homey charm with rustic alder. Featuring cherry-like grain, rustic alder displays visible knots, mineral, and color variation in the door frames and solid center panels.

QUARTERSAWN WHITE OAK

The more costly quartersawing method yields material with distinctive grain and superior stability. Combined with the popular Pendleton door style, it is the perfect choice for Mission-themed creations. Quartersawn white oak is also very receptive to glazing, highlighting its unique grain.

Please be aware that some other cabinetry brands will include cheaper, non-quartersawn components with their quartersawn doors. Showplace does not do this. We use genuine quartersawn white oak for face frames, end panels, and coordinating elements like moldings on all quartersawn cabinetry orders.

HANDCRAFTED GLAZING

Showplace glazed finishes highlight detail and create an impression of aging. Glazing is a finish step in which a pigmented material is applied to the surfaces, then hand-wiped partially away. This allows the glazing to “hangup” in areas of detail, adding contrast and depth. Because of the handcrafted nature of glazing, it is naturally variable.

Showplace glazing is offered at no additional charge in these six tones. Glazing is available on all styles, woods, stains and paints, in satin or matte sheen.

CHARACTER STAINS

Most stains tend to mute variations in the wood —the darker the stain, the more variation is hidden. But for those who appreciate the inherent variability, distinctive grain and unique personality of natural hardwood, we offer the Showplace character stains: Dusk, Midnight, Tawny and Flagstone.

These unique stains provide a rich, somewhat translucent look that accentuates grain and celebrates the variation found in natural wood characteristics. The Showplace character stains are offered at no additional charge.

ColorSelect

Showplace painted cabinetry and trim in any of more than a thousand Sherwin-Williams paint colors – that's what Showplace ColorSelect gives you.

MORE THAN A THOUSAND CHOICES

Choose any door style in red oak, rustic alder or paint grade. Keep it simple, or add free glazing or distressing, or select one of the Vintage choices in red oak, rustic alder or paint grade. Select satin or matte sheen. Then coordinate other elements of your home decor with Sherwin-Williams paints, available at more than 3,000 sources nationwide. Talk to your Showplace dealer to learn all about it.

ColorSelect CUSTOM

Have your heart set on a specific paint color from another paint brand? Not a problem. The Showplace ColorSelect Custom option frees you to create cabinetry in any paint color, from a suitable swatch or chip. Some limitations apply, so talk to your Showplace dealer about this special offering.

DISTRESSING

Rustic Alder Covington | **Finish:** Distressed Autumn with Ebony glaze

Showplace distressing gives an aged, timeworn look to cabinetry, reminiscent of antique furniture. The process creates soft corners and profiles, and subtle, randomly-placed dents. Optional glazing accentuates these features even more.

Showplace distressing includes your choice of oversanding, chain distressing, or both. Distressed paint finishes can also display optional rub-through. An even higher level of aged character is available with the Showplace Vintage finish which includes proprietary distressing techniques available only from Showplace.

Notice the oversanding visible on the corners and raised areas. Also note the random dents created by hand-applied chain distressing techniques.

PAINTED FINISHES

Showplace painted finishes give the impression of a solid-color surface, but with our lifetime-warranty quality. Our multistep process includes a final topcoat with an oven-baked varnish for superior durability.

OPTIONS

- ❖ Standard paint colors can be accented with no-charge, hand-wiped glazing. Page 23
- ❖ ColorSelect lets you specify any of more than a thousand Sherwin-Williams paint colors for your cabinetry, trim and accents. Page 25
- ❖ Create the impression of aging with our unique hand distressing. Page 26
- ❖ Opt for a dramatic Vintage paint. Page 29
- ❖ All Showplace finishes are offered in your choice of satin or matte sheen.

Showplace paints are offered on red oak and rustic alder. We also offer a couple of lower-cost, paint-only choices: paint grade and MDF (Medium Density Fibercore). Paint-grade doors and five-piece drawer headers have a solid, fine-grain hardwood frame. Center panels and slab headers are of MDF. In MDF styles, the entire door is MDF. In both, face frames and moldings are solid hardwood, and painted end panels are hardwood ply. MDF is used by cabinetry manufacturers of all quality levels because it is more stable than solid hardwood and will not expand or contract with seasonal changes.

VINTAGE FINISHES

The unique Showplace Vintage offering takes antique character to the highest level. Special Vintage finish techniques include hand padding and dry brushing to create a distinctive impression of elegant aging.

Optional Vintage character elements are achieved through chain distressing with a proprietary Showplace technique, worm holing and worm tracking, chisel and rasp distressing, and oversanding. This beautiful, handcrafted finish is offered in three variations, some without distressing, on a wide selection of woods, in both stains and paints, in your choice of satin or matte sheen. We invite you to view actual samples at your Showplace dealer.

RUSTIC WOODS

Rustic woods create environments with authentic warmth and natural homey charm. Rustics display visible knots, mineral and color variation in the door frame and solid center panel. The size, number and location of these characteristics will naturally vary.

Rustic alder and rustic hickory are available in a wide range of door styles and in all the standard stains offered for those woods. Rustic alder is also offered in painted finishes. The natural, timeworn character of rustics can be enhanced with optional glazing, distressing, or Vintage finish treatments.

QUALITY CONSTRUCTION

The Showplace drawer has a four-sided, 3/4" hardwood box that is dovetailed for rigidity. The 1/4" drawer bottom is captive on all four sides. The standard drawer glide is a ball-bearing full-extension undermount unit with soft-close action, and is rated for 75-pound dynamic loads, and 100-pound static loads.

All-wood construction for structural rigidity and lasting durability.

Face frames are 3/4" thick select hardwood components, dadoed to receive tops, bottoms and end panels.

Full-extension drawer glides have a standard soft-close action.

Adjustable soft-close hinges.

Hand-applied finish is sealed and given an oven-baked topcoat of catalyzed varnish for lasting durability in satin or matte sheen.

Interior options are durable and easy to clean.

Shelves are a hefty 3/4" thick and adjustable.
